

# Shame Pudding: A Graphic Memoir of Decolonization

In *Shame Pudding*, Sarah Ahmed explores the complex and often contradictory experiences of decolonization. Through a series of interconnected vignettes, she tells the story of her own journey from shame

and self-hatred to self-acceptance and empowerment. In ng so, she challenges the dominant narratives that have shaped our understanding of colonialism and its lasting effects.

Ahmed's memoir is both personal and political. She draws on her own experiences as a Bangladeshi-Canadian woman to explore the ways in which colonialism has shaped her identity and her relationships with others. She also explores the ways in which decolonization can be a painful and alienating process, but also a source of empowerment and liberation.
